

ARDA ERINC OGUZ

Aspiring Web Developer

ABOUT ME

I am an energetic and people-oriented individual, with a background in science and a conscientious and enthusiastic approach to my work. I work well in a team and am able to establish productive working relationships with them, with my clients, and everyone I get to meet amidst my work.

I'm looking to put into practice the skills I am learning in my current course, and advance my capabilities in both the front end and back end of web development
